OBJECTIVE

Motivated Computer Science Engineering student with strong analytical, problem-solving, and communication skills. Eager to apply my technical knowledge, collaborate with cross-functional teams, and contribute to innovative projects while continuously learning and growing in a dynamic organization.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, SQL

Web Technologies: HTML, CSS, JavaScript, Flask

Product Management: Product Research, Requirement Analysis, Agile Methodology, Scrum, Product Lifecycle, User Stories, Customer-Centric Thinking

UI/UX: Figma, Adobe Illustrator, Photoshop, Wireframing

Artificial Intelligence: OpenCV, Machine Learning, TensorFlow, Data Preprocessing, Feature Extraction

Databases: MySQL, SQLite, DBMS

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook

AI Productivity Tools: ChatGPT, Claude, Cursor, GitHub Copilot

Core Concepts: Object-Oriented Programming, Data Structures, Software Engineering

PROJECTS

Trip AI (Ongoing)

Flask — Python — SQLite

- Developing an AI-powered travel planning platform that recommends destinations based on budget and user preferences.
- Designed personalized itinerary planning, travel recommendations, and budget estimation features.
- Improved product usability through iterative feature enhancements and AI-driven recommendations.

Bookify App

HTML — CSS — JavaScript — Python

- Developed a travel booking platform for exploring destinations and managing travel information.
- Designed an intuitive user interface to improve navigation and customer experience.
- Enhanced usability by simplifying the booking workflow.

TraceFinder – AI-Based Forensic Scanner Identification

Python — OpenCV — Machine Learning

- Built an AI-powered forensic solution for scanner identification using scanned document images.
- Processed and analyzed more than 500 document images using OpenCV and Machine Learning.
- Evaluated classification models to improve scanner identification accuracy.

INTERNSHIP EXPERIENCE

AI Intern — Infosys Springboard (Virtual Internship 6.0)

Nov 2025 – Jan 2026

- Completed practical training in Artificial Intelligence and Machine Learning using Python.
- Developed data preprocessing pipelines and machine learning workflows.
- Applied AI concepts to solve real-world business problems.

UI/UX Design Intern — Make Vision Pvt. Ltd.

Jun 2025 – Jul 2025

- Designed user-friendly interfaces and wireframes using Figma.
- Collaborated with developers to improve product usability and user experience.
- Applied user-centered design principles across multiple projects.

Web Development Intern — ImageCon Academy

Jan 2024 – Feb 2024

- Developed responsive web applications using HTML, CSS, JavaScript, and Django.
- Improved website performance through frontend optimization.
- Assisted with backend integration and relational database operations.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

RP Sarathy Institute of Technology, Salem

2023–2027

Percentage: 83%

Higher Secondary Education

Government Higher Secondary School, Krishnagiri

2021–2023

Percentage: 75.3%

ACHIEVEMENTS

- First Prize – Paper Presentation, Muthayammal College of Engineering.
- Second Runner-Up – IPL Showdown Quiz, IIM Rohtak.
- Shortlisted with a score of 9.17 – BizWiz Quiz, NALSAR University.
- All India Rank 24 – National Case Event, IIT Bombay.

CERTIFICATIONS

- Software Development and Agile
- Generative AI Fundamentals
- Introduction to OpenAI GPT-4 and ChatGPT
- AWS Developer
- Cloud Computing
- Programming in Java
- Artificial Intelligence Fundamentals
- Data Science Fundamentals

SOFT SKILLS

Analytical Thinking • Problem Solving • Product Thinking • Customer-Centric Thinking • Cross-Functional Collaboration
• Communication • Critical Thinking • Adaptability • Teamwork
